- Safety line marking, fire lanes, curbs & bollards

HOW WE WORK

01 Consultation & assessment

Site visit, moisture and condition testing on floors, and a system specified for your traffic, chemicals and downtime window.

02 Surface preparation

Diamond grinding, shot blasting, pressure washing and repair. Every surface is prepped before the first coat.

03 System application

Primer, build coats and topcoat applied to a seamless, consistent finish, cleanly and on schedule.

04 Cure, inspect & handover

Controlled cure, a walk-through inspection with you, and clear care guidance.

SAFETY & CERTIFICATIONS

- AMPP member (formerly SSPC)
- WorkSafeBC compliant
- WHMIS 2015
- Occupational First Aid Level 1
- Respiratory protection
- Confined space awareness
- Naloxone administration
- Fall protection
- Scaffold & ladder safety
- MEWP and swing stage
- Telehandler (Class 7, Level 1)
- Counterbalance forklift
- Forklift classes 1, 4 & 5
- Audiometric (hearing) testing
